PROFESSIONAL SUMMARY

Quality Engineering Leader and QA Manager with 10+ years of experience across healthcare, aviation, finance, insurance, and education technology. Proven record leading distributed teams, scaling automation, improving release quality, and implementing modern AI assisted testing practices. Hands-on experience with Playwright, Python, TypeScript, MCP, AutoGen, LangChain, RAG evaluation, LLM benchmarking, and intelligent workflow automation.

AI AND MODERN QA

- AI Assisted Testing
- LLM Evaluation and Benchmarking
- AutoGen
- MCP (Model Context Protocol)
- LangChain
- Prompt Engineering
- RAGAS
- Multi Agent Systems

PROFESSIONAL EXPERIENCE

DocNow.ai | QA Manager / AI Automation Lead | 2025–Present

- Lead distributed QA teams supporting healthcare SaaS and AI enabled products.
- Implement AI assisted automation using Playwright, TypeScript, Python, AutoGen, MCP, and OpenAI technologies.
- Build evaluation frameworks for LLM and RAG applications using LangChain and RAGAS.
- Establish quality metrics for reliability, relevance, precision, recall, and factual correctness.
- Deliver executive quality reporting, release readiness assessments, and risk analysis.

Stride Inc. | Principal Quality Assurance Engineer | 2023–2025

- Led quality initiatives across large scale education technology platforms.
- Reduced regression effort through Playwright and API automation integrated into CI/CD.
- Mentored engineers and coordinated quality strategy with product and engineering leadership.

Bravado Health | Lead Software QA Engineer | 2021–2023

- Managed offshore QA teams supporting healthcare applications.
- Designed AWS based automation architecture and CI/CD quality pipelines.
- Developed Cypress, Selenium, Java, and Rest Assured frameworks.

Mindtree Ltd. | Senior QA Consultant | 2017–2025

Selected client engagements:

- Southwest Airlines
- Delta Air Lines
- Toyota Connected
- Equifax
- Tower Hill Insurance

Representative achievements:

- Built enterprise automation frameworks using Selenium, Playwright, Java, and REST technologies.
- Supported large scale aviation, insurance, and financial systems with CI/CD quality practices.

- Expanded mobile coverage through Appium automation.
- Delivered executive quality metrics and release readiness reporting.

TECHNOLOGIES

Automation: Playwright, Selenium, Cypress, Appium, Postman, Rest Assured, PyTest, Cucumber

Programming: Java, Python, TypeScript, JavaScript, SQL

CI/CD: GitHub Actions, Jenkins, GitLab CI

Cloud and Tools: AWS, Azure, Jira, Confluence, BrowserStack, Testmo

EDUCATION

Northeastern University

Master of Science in Information Technology Project Management

ADDITIONAL PROFESSIONAL DEVELOPMENT

- Harvard University — Data Science for Business
- University of Alberta — Software Product Management
- HEC Paris — Leadership Specialization
